

Design Showcase: Sustainable Backyard Cottages

Save the date - May 24th - for one of the most innovative housing events in Seattle this summer.

Method Homes and **Infiniti RED** have joined forces to promote public awareness around one of Seattle's most affordable infill housing options by hosting the **Backyard Cottage Design Challenge Showcase**.

This event will showcase the work of over **35 local architects and designers** who are combining good design with livability and sustainability. Event goers will have the opportunity to view all design challenge entries, meet the designers, participate in the awards ceremony, and enjoy food and drink. Design challenge winners will be selected by a jury of public and professional designers.

Awards will be given for the following 5 categories:

1. Overall Best Design
2. Honorable Mention for Overall Best Design
3. Most Innovative
4. Most Sustainable
5. Most Adaptable (to different sites and programs)

Backyard cottages can be built on city lots over 4000sf and are a more sustainable infill option for adding density to the urban landscape. Many homeowners are now exploring constructing these for additional income, extended family or downsizing. We encourage those interested to come & meet the top designers of Seattle's backyard cottages.

Location: SPACE: 7601 Greenwood Ave N, Seattle 98103

Date and Time: May 24th – Doors open at 5:30pm

Entry: Free & open to the public

Jurors include:

Seattle City Planning Commissioner, David Cutler
Principle of Hybrid Architecture, Robert Humble
O'Brien and Company, Colleen Groll

Advisor to the judges:

Seattle City Planner, Andrea Petzel
